

UNIVERSITY OF THE PELOPONNESE

Department of Civil Engineering

ERASMUS+ PROGRAMME - Staff Mobility for Training

PhD Eng. Aleksandra Powężka, academic staff member at Fire University, Warsaw, Poland,
is visiting our Department of Civil Engineering within the framework of
Erasmus+ Staff Mobility for Training from 22/06/2026 to 26/06/2026.

st. str. dr inż. Aleksandra Powężka

**Fire
University**

Fire University, Warsaw, Poland

Faculty of Safety Engineering and Civil Protection
Department of Threat Countermeasures, &
Department of Technical Security Systems
<https://apoz.edu.pl/en/wersja-ang/>

Senior Firefighter, PhD Eng. Aleksandra Powężka is an **academic staff member** specializing in civil engineering and technical security systems. Her teaching and research activities focus on building safety, technical infrastructure, and innovative solutions supporting the protection of people and property.

From **22 to 26 June 2026**, she is participating in the **Erasmus+ Staff Mobility for Training** Programme at the **University of the Peloponnese, Department of Civil Engineering**. The mobility aims to facilitate the exchange of academic experience, strengthen scientific cooperation, and foster the development of international teaching and research partnerships.

Research Interests:

- ✓ The use of waste and recycled materials in the production of concrete and composite materials in construction.
- ✓ Analysis of the impact of high temperatures and fire conditions on the behavior and load-bearing capacity of building structures.
- ✓ Safety engineering, with particular emphasis on fire safety of buildings.
